EXPERIENCE

Full stack development bootcamp [NeogCamp]

- Learnt about building full stack applications using **React**, **Node**, **Express** and **Mongo DB**.
- Conducted **code reviews** of projects made by other peer members.

Software Development Intern [Slatemates]

- Built performant server side rendered web applications from given UI designs using **Next JS** and **Material UI**.
- Collaborated with UI designer to understand the needs and actively provided solutions while building the application.

PROJECTS

Zeal UI [Source Code | Documentation]

(Open Source React Component Library)

- A simple, minimalistic component library that provides reusable and customizable components.
- It is powered by **styled components** and comes with **built in dark mode** support and **responsive design**.

Zeal Cart [Source Code | Live]

(Ecommerce app to buy essential goods)

- An e-commerce platform for buying essential goods.
- Users can create their own account, maintain products in their wish list and cart.
- Sort and filter products based on different parameters.

Zeal Stream [In Progress]

(Video/Podcast app for learning Software Development)

- A web-based platform for learning software development and sharing developer experiences through podcasts and videos.
- Users can create their own account, maintain curated playlists and subscribe to their favorite channels.

Zeal AMA [In Progress]

(Live streaming app to conduct Ask Me Anything sessions)

- Host can answer questions posted by the users, through their camera and mic.
- Users including host can upvote questions and chat with other participants.
